

# ANIMALS

The human being  
Always try  
To classify  
Who is  
And who could be  
An animal  
It is an imprecise  
Distinction  
Since he forgets  
That the animal  
Is already classified  
It is part  
Of something  
Already defined  
There are  
And have been  
Divided  
Some parts  
That compose  
The Living Beings  
Meaning  
Any  
Kind of Being  
That lives  
And prospers  
On the Planet  
Earth  
Are  
Denominated  
For them  
To be  
Identified  
And known  
As belonging  
To a Kingdom  
What is

Meant  
By Kingdom  
An ensemble  
Of Living Beings  
Meaning  
Belonging  
To the same  
Category  
Of Living Beings  
Who live together  
Meaning the Kingdom  
Animal Kingdom  
The Human Being  
Belongs  
To the Animal Kingdom  
In absolute  
Meaning  
Living Beings  
Capable  
Also in their  
Characteristics  
Of intending  
Of wanting  
Of understanding  
Of acting  
Whether singularly  
Meaning alone  
Or together  
With others  
Of the same species  
Thus  
Each component  
Of the Animal Kingdom  
Regardless  
Of its own  
Physical structure  
And visual  
Belongs

To the Animal Kingdom  
It is necessary  
To understand  
And comprehend  
That each component  
Of the Animal Kingdom  
Is able  
To develop  
Its own  
Capacities  
To live  
And survive  
In the environment  
Around it  
That can be  
Attention  
Air  
Soil  
Water  
It must not surprise  
This combination  
It is known  
And one should  
Know  
That each animal  
In its environment  
Is perfectly  
Capable  
To live  
In the best  
Way  
To progress  
And continue  
Its own species  
Without the need  
Of interventions  
Of others  
Belonging

To Animals Kingdoms  
It cannot  
And it can never  
Try  
To modify  
Its own behaviour  
And physical structure  
To live  
Like others  
Belonging  
To Animals Kingdoms  
It has not been  
Created  
For this  
It must live  
Only with  
His kindred  
Meaning  
Of the same  
Animal Kingdom  
Each  
Interference  
Or attempt  
Of variation  
Is destined  
To fail  
Or to produce  
Highly negative  
Effects  
Towards oneself  
Hence  
In this script  
We talk  
Exclusively  
Of the Animal Kingdom  
That comprises  
The Human Being  
Who must

Never  
Forget  
That he has been  
Created  
Only  
To live  
As Human Being  
That is certainly not  
Easy  
To understand  
One's own limits  
In any sense  
And direction  
This kind  
Of Animal  
Can walk  
And move around  
With what he has  
It is obvious  
That to move around  
In another way  
Other instruments  
Are necessary  
Which can be  
Created  
To ease  
His path  
But must  
Always be  
Very careful  
To not go beyond  
A limit  
That even though  
It is not visible  
It exists  
Beyond this  
He cannot go  
And he will not be able

To go  
So as not to provoke  
The physical end  
Of his Kingdom  
He must be  
Very careful  
He cannot do  
What is dictated  
By a certain  
Superiority  
That he believes  
To have  
But that instead  
Does not have  
There are  
Animals  
Of other  
Kingdoms  
Visually  
Better  
And absolutely  
More capable  
To use  
Their own main  
Qualities  
In few words  
Paraphrasing  
They belong  
To other Kingdoms  
And are  
More intelligent  
And capable  
To live  
In their  
Environment  
Than  
The Human Being  
In few words

To be clear  
They do not modify  
And do not mutate  
Their environment  
That is already perfect  
For them  
They are not trying  
To make  
Or try  
To make  
What is not  
For them  
They live  
In their environment  
And progress  
And can progress  
In the best way  
In their time  
Together  
With the time  
Of the Human Being  
Each one  
Of them  
Of each category  
Will never do  
Anything  
To vary  
Or change  
Its own Kingdom  
To move  
Onto another  
To be clear  
A four-legged  
Animal  
Will never be  
A two-legged  
Animal

Who lives  
In the water  
Will never live  
Outside the water  
An animal  
That lives  
In the air  
Will never try  
To live  
In the water  
Or without air  
Each one  
Belongs  
To an Animal Kingdom  
If it was  
Allowed  
To modify itself  
It would have a  
Different  
Structure  
Apt to produce  
These changes  
To live  
Differently  
Why  
The Human Being  
Try to be  
What it is not  
And to live  
Where  
He cannot live  
Because  
It is not his  
Environment  
It is not  
His World  
And it is certainly not him who is  
Capable

And in condition  
To change  
The Worlds  
The Human Being  
Is only matter  
Nothing else  
And must live  
In the best way  
And more just  
Without looking for  
Some variants  
That he will never be able  
To make  
There is something  
That is possible  
To denominate  
Improperly  
Something  
That can  
Modify  
Change  
Vary  
And can do it  
If you are  
True Living Beings  
You should have understood  
Understood!

(to be continued)

March 2012  
Donato

I have talked  
About the animal  
Human Being  
Living Being  
There are  
Other animals  
Close  
To the Human being  
Who have chosen  
To live  
Close  
To the Human being  
Not all  
The Animals  
That live  
Close to the Human  
Being  
Are destined  
They have chosen  
To live  
With the human being  
To teach  
But non always  
It is understood  
What it is  
And what it means  
To live together  
Completing  
One another  
For a whole  
Life  
It is an animal  
Even though  
It does not express itself  
Like a human being  
It is capable  
To make itself understood  
And understands

Perfectly  
What it transmitted  
To it  
And indulge  
Licit  
Wishes  
From  
The human being  
At the same  
Time  
Transmits  
To the human being  
That lives  
Close to Him  
And with him  
The Love  
That it feels  
With this  
Closeness  
It shows  
In this way  
That it is not  
Only an animal  
But a  
Living Being  
Like who lives  
Close to Him  
And even better  
Of who lives  
Close  
To Him  
This should  
Be sufficient  
To make who lives  
Close to Him  
Understand  
That it is not  
An object

Or a living  
Thing  
To satisfy  
The moods  
Of the human being  
Certainly  
Not all  
These animals  
Are the same  
Or have  
The same functions  
In absolute  
One can define  
This kind  
Of animal  
The Cat  
The Dog  
And in minor  
Way  
But not for this  
Less important  
A bird  
Each one of them  
Is capable  
To express  
In its language  
And way of living  
Some very evident  
Signs  
Of affection  
But  
Above all  
To Love  
Yes  
Not only  
The human being  
Knows  
And expresses

True Love  
Also  
Particular  
Species  
Of animals  
Living  
Close  
To the human being  
Are capable  
To express  
True Love  
It shouldn't be necessary  
But like  
Sometimes  
The Human being  
This animal  
Is capable  
And gives  
Its own  
Life  
To save  
The life  
Of the human being  
That lives  
With Him  
On must  
Absolutely  
Never forget  
These  
Animals  
Are not  
Toys  
Pastimes  
Or ways  
To amuse oneself  
Or for leisure  
They are  
Living Beings

And as such  
Have to be considered  
In the same  
Way  
Of a human being  
This  
Means  
If one has not  
Understood  
That it can  
Suffer  
Like  
A human being  
Thus  
Has to be protected  
Cured  
Assisted  
Until  
It decides  
To continue  
To live  
Close  
To the human being  
It is good to always  
Remember  
That like  
The human being  
That assists  
Until the end  
And in the best  
Way  
With patience  
Serenity  
Affection  
Solicitude  
And a lot of Love  
Another human being  
It is necessary

To understand  
Beyond  
Any consideration  
That it is like  
The human being  
It has only  
Another shape  
But lives  
Its life  
To make  
The life  
Of the human being  
Better  
With affection  
That in that  
Moment  
Lives  
Close to him  
Remember  
It has only  
Another form  
Another physicality  
But it has  
Within  
All  
The best  
Feelings  
That should  
Have  
The human being  
It is a Living Being  
Like the Human being  
And has  
Within  
The Spirit  
That allows it  
To live  
In that way

With all  
The best  
Qualities  
Of the human being  
It suffers  
It rejoices  
It loves  
Like the human being  
It is just  
Different  
In appearance  
In the exterior  
Form  
But inside  
It is like  
The Human Being  
Always  
Remember that  
It lives  
With You  
And can come back  
To live  
With you  
To make you understand  
That even Him  
Is part  
Of the Creation  
And it has been  
Created  
From the same  
SOURCE  
Remember that  
When it lives  
Close to You  
It is a Living Being!
